Bankura Terracotta Horse

Bankura is famous for her terracotta temples of Bishnupur and many other places in the district. For centuries together the artisans of this area have developed this art. The recent fame of the district in the field of terracotta handicrafts is due to the famous 'Bankura Horse'. It is produced exclusively by the artisans of Panchmura, a village, about 8 Km. south-east of Taldangra CD Block. In course of the last few decades the fame of the commonly known 'Bankura Horse' has reached many parts of the global arena. The 'Bankura Horse' has now come to be regarded as a symbol of the artistic excellence of Indian Rural Handicrafts - a fact which finds confirmation in its use as the official crest-motif of the All India Handicrafts Board. The long-necked Panchmura Horse is made hollow with some circular vents here and there to facilitate uniform firing in the country kilns, Panchmura Horse is motionless. It stands on its four legs with the neck held high and the ears and the tail erect straight.

The original function of these terracotta horses were a ritualistic one. People offer them as a token of their devotion to Dharma Thakur, Manasa and numerous other Gram Devatas. Such offerings are also made on the tombs of Muslim Saints whose worshippers do not necessarily belong to the Muslim community alone. The structure of 'Bankura Horse' has been so fashioned as to symbolise a mark of devotion.

FOREWORD

The District Census Handbook (DCHB) is an important publication of the Census Organization since 1951. It contains both Census and non Census data of urban and rural areas for each District. The Census data provide information on demographic and socio-economic characteristics of population at the lowest administrative unit i.e. of each Village and Town and ward of the District. The Primary Census Abstract (PCA) part of this publication contains Census data including data on household amenities collected during 1st.phase of the Census i.e. House Listing and Housing Census. The non Census data presented in the DCHB is in the form of Village Directory and Town Directory contain information on various infrastructure facilities available in the village and town viz; education, medical, drinking water, communication and transport, post and telegraph, electricity, banking, and other miscellaneous facilities. Later on, the Telegraph Services were closed by the Government of India on 15th. July, 2013. The data of DCHB are of considerable importance in the context of planning and development at the grass-root level.

2. In the 1961 Census, DCHB provided a descriptive account of the District, administrative statistics, Census tables and Village and Town Directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to Village and Town Directory, Part-B to Village and Town PCA and Part-C comprised analytical report, administrative statistics, District Census tables and certain analytical tables based on PCA and amenity data in respect of Villages. The 1981 Census DCHB was published in two parts: Part-A contained Village and Town Directory and Part-B the PCA of Village and Town including the SCs and STs PCA up to Tahsil/Town levels. New features along with restructuring of the formats of Village and Town Directory were added. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent Village, the distance in broad ranges from the nearest place having such an amenity, was given.

3. The pattern of 1981 Census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 Census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 Census was the Community Development Block (CD Block) level presentation of Village Directory and PCA data instead of the traditional Tahsil/Taluk/PS level presentation.

4. As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a Village in addition to prescribed facilities of earlier Censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

5. The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. These newly

added amenities are: Pre-Primary School, Engineering College, Medical College, Management Institute, Polytechnic, Non-formal Training Centre, Special School for Disabled, Community Health Centre, Veterinary Hospital, Mobile Health Clinic, Medical Practitioner with MBBS Degree, Medical Practitioner with no degree, Traditional Practitioner and faith Healer, Medicine Shop, Community Toilet, Rural Sanitary Mart or Sanitary Hardware Outlet in the Village, Community Bio- gas, Sub Post Office, Village Pin Code, Public Call Office, Mobile Phone Coverage, Internet Cafes/ Common Service Centre, Private Courier Facility, Auto/Modified Autos, Taxis and Vans, Tractors, Cycle-pulled Rickshaws, Carts driven by Animals, Village connected to National Highway, State Highway, Major District Road, and Other District Road, Availability of Water Bounded Macadam Roads in Village, ATM, Self-Help Group, Public Distribution System(PDS) Shop, Mandis/Regular Market, Weekly Haat, Agricultural Marketing Society, Nutritional Centers (ICDS), Anganwadi Centre, ASHA (Accredited Social Health Activist), Sports Field, Public Library, Public Reading Room, Assembly Polling station, Birth & Death Registration Office. In the Town Directory, seven Statements containing the details and the data of each Town have been presented viz.; (i)-Status and Growth History of Towns,(ii)- Physical Aspects and Location of Towns, (iii)-Civic and other Amenities, (iv)-Medical Facilities, (v)-Educational, Recreational & Cultural Facilities, (vi)- Industry & Banking, and (vii)- Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 Census as presented in earlier Census.

6. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

7. The Village and Town level amenities data have been collected, compiled and computerized under the supervision of Shri Deepak Ghosh, IAS., Director of Census Operation, West Bengal. The task of Planning, Designing and Co-ordination of this publication was carried out by Dr. Pratibha Kumari, Assistant Registrar General (SS) under the guidance & supervision of Dr. R.C.Sethi, Ex-Addl. RGI and Shri Deepak Rastogi present Addl.RGI. Shri A.P. Singh, Deputy Registrar General, (Map) provided the technical guidance in the preparation of maps. Shri A.K. Arora, Joint Director of Data Processing Division under the overall supervision of Shri M.S.Thapa, Addl. Director (EDP) provided full cooperation in preparation of record structure for digitization and validity checking of Village and Town Directory data and the programme for the generation of Village Directory and Town Directory including various analytical inset tables as well as Primary Census Abstract (PCA). The work of preparation of DCHB, 2011 Census has been monitored in the Social Studies Division. I am thankful to all of them and others who have contributed to bring out this publication in time.

PREFACE

The District Census Hand Book or DCHB is the most popular and widely used publication which is compiled and prepared by the Census Organization. The first ever DCHB was published in the year 1951. Thereafter Census Directorate is coming up with the publication of DCHB in every decadal Census and the present volume of DCHB of 2011 is seventh in the series.

Over the time, the contents of DCHB have been changing keeping in track with the requirement of the data user on different amenities. Since DCHB is a compilation of Census and non-Census data, the presentation is being done in two parts, viz. the Part-A and Part-B separately for each district. Part-A contains Village & Town Directory data with some important tables depicting availability of basic civic amenities such as drinking water facilities, educational facilities, post & telegraph facilities, banking facilities etc. at the C.D. Block/Village and Town level. Part-B on the other hand contains District Primary Census Abstract of Total Population including Scheduled Castes and Scheduled Tribes at the C.D. Block/Village level and for urban units like for Statutory Towns and Census Towns, it is ward level. Part-B contains data for sex wise distribution of population, age group of 0-6 years, literate and illiterate, Scheduled Castes and Scheduled Tribes, worker and non-worker data, economic category i.e. cultivator, agricultural labour, household industry worker and other worker.

Apart from the above, DCHB also furnishes a variety of essential information pertaining to the district like brief history, the information about administrative set-up, location, climate, economic resources, land use, transport, industry, trade and commerce, place of historical, archaeological and tourists importance etc. It also provides brief analysis of Census data, presentation of the data through various tables, graphs and maps has made the publication much more attractive and valuable.

Most sincere and deepest gratitude is expressed to Dr. C. Chandramouli, IAS, Registrar General and Census Commissioner, India for his constant inspiration, support and valuable suggestions. The support and assistance of Dr. R.C. Sethi, former Additional Registrar General and Shri Deepak Rastogi, present Additional Registrar General, worth special mentioning. Our earnest gratitude to them. We are also grateful to Dr. A.P. Singh, former Deputy Registrar General (Map) for providing the technical guidance in the preparation of maps and to Dr. Pratibha Kumari, Assistant Registrar General (SS) for her overall supervision. Shri A.K. Arora, Joint Director of Data Processing Division under the overall supervision of Shri M.S. Thapa, Additional Director

(EDP) provided full co-operation in preparation of record structure for digitization and validity checking of Village and Town Directory data and the programme for the generation of Village Directory and Town Directory including various analytical inset tables as well as Primary Census Abstract (PCA). Heartfelt thanks to all the Officers of the Office of the Registrar General, India who contributed their share in befitting manner.

The sincere contributions made by the District Magistrates of all districts, Municipal Commissioners of Kolkata and Haora Municipal Corporations, District Census Officers, Additional District Census Officers (Officer In-charge, Census) and innumerable Village, C.D. Block and Town level officials of all the districts of West Bengal for arranging collection of village and town directory data by the local officials from the villages/towns under their respective jurisdiction are hereby acknowledged with thankfulness.

At this Directorate level, sincere thanks are due to all those who put utmost sincerity and zeal towards the successful completion of this publication within the stipulated time. As it is not feasible to express recognitions individually, a separate page of acknowledgement is included in this publication.

HISTORY AND SCOPE OF THE DISTRICT CENSUS HANDBOOK

The need of data at the grass root level for the administrative and planning purposes at sub micro level as well as academic studies prompted the innovation of District Census Handbook. District Census Handbook is a unique publication from the Census organization which provides most authentic details of census and non-census information from village and town level to district level. The District Census Handbook was firstly introduced during the 1951 Census. It contains both census and non census data of urban as well as rural areas for each district. The census data contain several demographic and socio-economic characteristics of the lowest administrative unit i.e. of each village and town and ward of the district. The non census data comprise of data on availability of various civic amenities and infrastructural facilities etc. at the town and village level which constitute Village Directory and Town Directory part of the DCHB. The data of DCHB are of considerable importance in the context of planning and development at grass-root level.

In 1961 census DCHB provided a descriptive account of the district, administrative statistics, census tables and village and town directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was published in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features along with restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given.

The pattern of 1981 census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD Block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation.

As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a village in addition to prescribed facilities of earlier censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. In the Town Directory, seven Statements containing the details and the data of each town have been presented viz.; (i)-Status and Growth History of towns,(ii)- Physical Aspects and Location of Towns, (iii)-Civic and other Amenities, (iv)-Medical Facilities, (v)-Educational, Recreational & Cultural Facilities, (vi)- Industry & Banking, and (vii)- Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 census as presented in earlier census. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

Brief history of the district

Bankura district (bæn'kœərə) is one of the seven districts of Burdwan Division of West Bengal. The district may be described as the "connecting link between the plains of Bengal on the east and Chota Nagpur plateau on the west."

Once Centre of the famous Malla kingdom, the district and its surrounding regions are identified for its later middle age period's historical and cultural significance. The religion of the Malla kingdom was Vaishnavism which shaped the culture of the region. In 1765, the Malla Kingdom was annexed with the British East India Company and the modern Bankura district took its form in 1881 and was named after its headquarters.

There is no authentic historic document relating to the naming of the district. Some critic cites that the name may have been derived from the language of the Kol-Mundas, where 'baku' means extremely beautiful and 'orah' or 'rah' means habitation. Some says that it may have come from the word 'banka' which means zig-zag. Again, take into account that one of the most influential deities in the district is Dharmathakur and he is locally called Bankura Roy. Some says that the district headquarters and the district is named after his founder, a tribal chief named Banku Rai. Another legend suggests that the town was named after Bir Bankura, one of the twenty-two sons of BirHambir, the *Raja* of Bishnupur who developed the town that now bears the name Bankura. It has also been suggested that the name is a corruption of the word Bankunda, meaning five tanks. The name Bacoonda is found in old official records.

Sign of early human habitation are found in the area of Dihar. It is said the about 1000 BC people used to settle on the north bank of the Dwarakeswar. Bankura district was inhabited by various tribes who have come from northern India and settled here. As a part of ancient Rarh, the people of the district are referred to as *asuras* (demons) in AitareyaAranyaka (around 7th century BC). Old Jain book Acaranga Sutra (around 4th century) also described the people of this are as uncivilized and barbaric.

Susunia edict of the 4th century written in Prakrit and Sanskrit suggests that Chandravarman, son of Simhavarman, was the ruler Pushkarana (modern Pokhanna in Bankura district). According to the inscription on the Allahabad pillar, Chandravarman was defeated by Samudragupta and the area became a part of the Gupta Empire. The area was for many years part of Dandabhukti and Bardhamanbhukti. By 6th century A.D. when the Gupta power was declining, Sasaka became the King of Gour sometime before 606 A.D. with his capital at Karnasuvarna and all the tracts surrounding the present day Bankura district appear to have been included in Sasanka's Empire. With the death of Sasanka his empire broke up and with the rise of Gopal in 8th century, the Pal Empire became the principal power of Eastern India. But probably the Pal Empire didn't extend south of the Damodar river before Devpal's regime and that too for a brief spell.

From around 7th century till around the advent of British rule, the Bishnupur kingdom of the district have witness the rise and fall of Hindu rulers. Bishnupur was then called Mallabhum as smaller kingdoms of aboriginal tribes, such as Dhalbhum, Tungbhum, Samantabhum and Varahabhumi or Varabhumi were gradually subdued and overshadowed by the Malla kings of Bishnupur.

Malla dynasty was founded by AdiMalla, ruled in Laugram which is almost 8.4 kilometres (5.2 miles) from Kotulpur, for 33 years. AdiMalla was a title bestowed to him when he was only 15 years as because there were no wrestlers to beat him. The word AdiMalla means the original or unique wrestler. He was known as the Bagdi Raja. Jay Malla, the successor and his son extended his domain and shifted his capital to Bishnupur. The subsequent kings steadily extended their kingdom. Other

renowned rulers of Malla dynasty were KaluMalla, KauMalla, JhauMalla and Sur Malla.

Vaishnavism :, The 49th ruler of the Malla dynasty was BirHambir who flourished around 1586 AD and ruled in 16th-17th century. He was contemporary of the Mughal Emperor Akbar and Muslim historians mentioned his involvement on the side of Mughals in their struggle against the Afghans. For gaining suzerainty he used to pay an annual tribute to the Muslim viceroys of Bengal. Worship of Madan Mohan in Bishnupur was introduced by him after he was converted to Vaishnavism by Srinivasa.

Mughal Period : Geographically Bankura is protected by the hurried current of Damodar river and by a widespread region of scrub wood and *sal* jungle. The powerful Malla kings ruled the area rather peacefully. Even the great Mughal didn't intervene. Later the suzerainty of the Mughal rulers was acknowledged by the Malla Kings of Vishnupur by way of paying the annual tributes. However in 1590, Malla King BirHambir rescued Jagat Singh - the son of Akbar's General Raja Man Singh - during a battle at Raipur in present Bankura between the Mughal and the Afghan. Raja Man Singh also came to his help when the Afghans attacked BirHambir for his loyalty to the emperor of Delhi. Later BirHambir reigned for a long time almost as a sovereign. There is, however, instances of several stray clashes between Utkal kings and Muslim invaders over possession of some other parts of the present day district.

Maratha raids : The Bishnupur Rajas started declining in the first half of the 18th century. First, the Maharaja of Burdwan seized the Fatehpur Mahal, and then the Maratha invasions laid waste their country. Myth runs that when the Marathas under Bhaskar Rao attacked Bishnupur in 1742, the troops of Gopal Singh put up a spirited fight. Suddenly Gopal Singh ordered to retreat them within the fort and asked the citizens to pray to Madan Mohan in order to save the city. Madan Mohan responded and the cannons were fired without human assistance. The Maratha's retreated but took control over the less protected parts of the kingdom. Bishnupur Raj family was ruined due to intrigue and litigation and eventually in 1806, the estate was sold for arrears of land revenue and bought up by the Maharaja of Burdwan.

British administration : In the year 1760, Bishnupur was ceded to the British with the rest of Burdwanchakla. The Marathas had laid the country waste and famine of 1770 completed the misery of the kingdom. People swept away, cultivation failed and there was lawlessness everywhere due to lack of powerful administration as once the powerful king had been reduced to the status of a mere *zamindar*. Making Suri the capital, Bishnupur was united with Birbhum in 1787 but rebellious situation prevailed. Till 1793, Bankura continued to be part of Birbhum, when it was transferred to the Burdwancollectorate.

Towards the end of the 18th century, when Bankura was part of Jungle Mahals, certain portions of the district around Raipur were affected by the Chuar rebellion. The disturbances of the Chuars in 1832 in the western part of the district lead to the disbandment of the Jungle Mahals in 1833. Bishnupur was transferred to Burdwan. In 1872, the parganas of Sonamukhi, Indas, Kotulpur, Shergarh and Senpahari were transferred from Manbhum to Burdwan. In 1879, the district acquired its present shape with the *thanas* (Police Stations) of Khatra and Raipur and the outpost of Simlapal being transferred from Manbhum, and the *thanas* of Sonamukhi, Kotulpur and Indas being retransferred from Burdwan. However, it was known for some time as West Burdwan and it came to be known as Bankura district from 1881 onwards only. Since then there has been no change either in the physical boundary of the district or in the administration of justice.

Administrative Set-up

(iii) Administrative set up :

(i) Region of the state where district is located :

Bankura is situated between 22°38" and 23°38" North latitudes and between 86°36" and 87°46" East longitudes on the western periphery of the state of West Bengal and included in the Barddhaman Division. It formed the Western boundary of the state bordering Bihar (now Jharkhand) till 1956 when Purulia was included in West Bengal and formed the western most boundary of the state.

(ii) Total number of CD Blocks or the next Administrative units after district and changes therein including jurisdictional changes during 1991-2001 :

The district Bankura is divided into three Sub-Divisions, viz. (1) Bankura (Sadar) (2) Bishnupur and (3) Khatra. There are 23 Police Stations in the district. Bankura (Sadar) Sub-Divisions has got 8 Police Stations namely Bankura, Chhatna, Saltora, Mejia, Gangajal Ghati, Barjora, Beliatore and Onda. Bishnupur Sub-Division has got 6 Police Stations namely Bishnupur, Joypur, Kotulpur, Sonamukhi, Patrasayer and Indus. Khatra Sub-Division has got 9 Police Stations namely Indpur, Khatra, Hirabandh, Ranibandh, Barikul, Taldangra, Simlapal, Raipur and Sarenga.

There are 22 Community Development (C.D.) Blocks in the district. Bankura (Sadar) Sub-Division consists of 8 C.D. Blocks namely Bankura-I, Bankura-II, Chhatna, Saltora, Mejia, Gangajal Ghati, Barjora and Onda. Bishnupur Sub-Division consists of 6 C.D. Blocks namely Bishnupur, Joypur, Kotulpur, Sonamukhi, Patrasayer and Indus. Khatra Sub-Division consists of 8 C.D. Blocks namely Indpur, Khatra, Hirabandh, Ranibandh, Taldangra, Simlapal, Raipur and Sarenga.

(iii) Total number of Towns/Villages etc. :

Total number of urban units in Bankura is 5, out of which there are 3 municipalities i.e. statutory towns viz. (1) Bankura (2) Bishnupur and (3) Sonamukhi and 2 Census Towns viz. (1) Barjora and (2) Beliatore. As per reports of 2011 Census, district Bankura has 9 Census Towns viz. Khatra (CT), Ledisol (CT), Jhanti Pahari (CT), Kotulpur (CT), Simlapal (CT), Raipur Bazar (CT), Ghutgarya (CT), Barjora (CT) and Beliatore (CT).

The district has 22 Panchayat Samities with 190 Gram Panchayats consisting of 3,830 villages.

(iv) If the district is newly created, the area from which it has been carved out :

It is not a newly created district.

(v) Urban Local Bodies :

India has seen the formation of urban local bodies since the time of Indus Valley Civilization. The first Municipal Corporation was set up at erstwhile Madras (now Chennai) under a charter granted by James-II during the British rule in 1687. There are different types of urban local bodies, namely, Municipal Corporations, Municipal Councils, Municipalities, Notified Area Committees, Cantonment Boards etc. Except the Cantonment Boards all other types of municipal bodies are governed by the state municipal laws. Cantonment Boards are controlled by the Central Act called Cantonment Acts, 1924. A municipality is constituted with elected members of

the inhabitants of a city or town. Municipal corporations, and is created by the enactment of State Legislatures or of Parliament in case of Union Territories. The area which does not fulfil all the conditions lay down as necessary for the constitution of a municipality or it may also be created for newly developing towns or areas are known as Notified Area Committee. Except Notified Area, the councils of all these corporate bodies comprise of elected members of the public through adult franchise (citizen of 18 years and above) based on secret ballot. The Notified Area is governed by the state governments through a body nominated by it. Apart from overall planning, creation and maintenance of Civil Administration, the primary object of every urban local body is to provide certain civic amenities to the people. As already stated, there are three municipalities in Bankura, viz. Bankura, Bishnupur and Sonamukhi. All the three municipalities came into existence in the 19th century. Bankura Municipality was established on April 1, 1869, Bishnupur Municipality on September 1, 1873 and Sonamukhi Municipality between 1886-87.

Civil Administration :

The Civil Administration of the district consists of the District Magistrate as the Principal Executive with 3 Sub-Divisional Officers being the Sub-Divisional heads and one Block Development Officer for each C.D. Block. Under the Police Administration, Superintendent of Police is the head of the district and under him there are 3 Sub-Divisional Police Officers with Inspector-in-charge/Officer in charge in each police station. At the district Head Quarter District Judge is the head of the Judiciary. The Sub-Divisional Judicial Magistrate sits in the Courts at the Sub-Divisional level.

District Highlights - 2011 Census

- Bankura District comprises of 22 C.D. Blocks and 3 Statutory Towns.
- There are total 3,823 Villages and 9 Census Towns in the District.
- Bankura District ranks 13th in terms of Total Population in the State and it ranks 14th in terms of Child (0-6 year's) Population in the State.
- Bankura District occupies 8th position in terms of Scheduled Caste Population in the State.
- Bankura District occupies 6th position in terms of Scheduled Tribe Population in the State.
- The percentage of urban share of Population of Bankura District has expanded from 7.4% (2001 Census) to 8.3% (2011 Census) of Total Population of respective Census.
- Bankura District ranks 12th in decadal Population growth rate among the Districts with 12.7%.
- The density of Population (Population per square km) of the District is 523 per square km which makes its rank 18th in the State.
- The Sex Ratio of the District is 957 (No. of females per 1000 males) which is much higher than the State's Sex Ratio (950) and it ranks 6th in the State and retains same position when only Rural Sex Ratio (956) is considered.
- Bankura District has the highest Sex Ratio jointly with Paschim Medinipur for **Scheduled Caste Population**. The ratio is 979.
- Remarkably for Scheduled Tribe Population the District has 1,010 females per 1,000 males and it ranks 3rd in this category.
- In case of proportion of Child Population (0-6 year's), Bankura District ranks 9th along with Paschim Medinipur in the State (11.6%).
- Bankura District has experienced decline in Child Sex Ratio (CSR) from 953 in 2001 Census to 949 in 2011 Census vis-à-vis the State decline from 960 in 2001 Census to 956 in 2011 Census has been noticed.
- Literacy rate of the District is 70.3% (higher than the State average of 76.3%) thereby making its rank 15th in the State.
- The Work Participation Rate has fallen from 44.7 (in 2001 Census) to 40.8 (in 2011 Census) and in this case it ranks 4th in the State.
- In Bankura District the percentage of Main Workers to Total Workers has dropped from 66.2 in 2001 Census to 62.5 in 2011 Census similar to the State where the percentage 78.1 in 2001 Census dips into 73.9 in 2011 Census.
- There are 2 (two) Villages having Population 10,000 and above.
- Shushunia Pahar (Chhatna C.D. Block), Rajadal (Chhatna C.D. Block), Bhalukchal (Indpur C.D. Block), Gosainhir (Indpur C.D. Block), Kesheshol (Sonamukhi C.D. Block), Chak Murakhal (Kotulpur C.D. Block) are the least populated Villages in the District with Population 1 each.
- Aguri Band Punisol (Onda C.D. Block) is the most populated (Population 22,193) Village in the District.
- Onda C.D. Block has the highest number of Villages (291) and Mejhia C.D. Block has the lowest number of Villages (75) in the District.
- Bankura District stands 4th in terms of area (6882.00 sq km) in the State.
- Cultivators and Agricultural Labourers constitute the Main Work force of the District. They are 21.1% and 44.2% of the Total Workers respectively.
- There are 238 uninhabited Villages in the District.

Section - I

Primary Census Abstract (PCA)

Brief Note on Primary Census Abstract

Introduction:

The Indian Census has the reputation of being one of the best in the world. The first Census in India was conducted in the year 1872. This was conducted at different points of time in different parts of the country. In 1881 a Census was taken for the entire country simultaneously. Since then, Census has been conducted every ten years, without a break. Thus, the Census of India 2011 was the fifteenth in this unbroken series since 1872, the seventh after independence and the second census of the third millennium and twenty first century. The census has been uninterruptedly continued despite of several adversities like wars, epidemics, natural calamities, political unrest, etc.

The Census of India is conducted under the provisions of the Census Act 1948 and the Census Rules, 1990. In Censuses until 1931, a synchronous de-facto method was adopted wherein the Census was conducted throughout the country on a single night. This being a very costly affair and involved the deployment of very large force at one point of time was given up in 1941. Since then the same methodology has been followed in all the Censuses. It is a gigantic operation and considered to be the single largest, complex, peace time administrative exercise in the world.

The Census Operation in India is carried out in two distinct but inter connected phases - the House listing and Housing Census followed by the Population Enumeration. During the first phase of Census 2011 i.e., House listing and Housing Census, the buildings, census houses and households were identified and systematically listed in the House Listing and Housing Census Schedule during the period April to September, 2010 in different States/Union Territories. Apart from listing of houses, some useful data on the amenities available to the households was also collected for assessing condition of human settlements, housing deficits etc.

Censuses prior to Census 2001 had the system of collecting the information through Individual Slip which was a key schedule for every individual. The information collected through slip was then compiled for a household. Some information was also collected in addition to this for the household. During 2001 Census a comprehensive Household Schedule was adopted replacing the individual slip concept. In 2011 Census also similar household schedule was used for canvassing. The scope of demographic, socio-economic parameters has been widened in every census.

2. Population Enumeration - Census 2011:

The field work of the second phase i.e. Population Enumeration was carried out during February-March, 2011. One of the essential features of Population Enumeration in the second phase was that each person was enumerated and her/his individual particulars were collected at a well-defined point of time.

The Census moment and the reference date for the Census of India 2011 was 00:00 hours of 1st March, 2011. The enumeration was conducted from 9th February to 28th February, 2011 along with a revisional round from 1st March, 2011 to 5th March, 2011 synchronously all over the country except for few specific areas of the Jammu & Kashmir, Himachal Pradesh and Uttarakhand states that remain snowbound in February. In these locations the population enumeration was done from 11th September, 2010 to 30th September, 2010 along with a revisional round from 1st October, 2010 to 5th October, 2010. The reference date for the census in snow bound non-synchronous areas of these states was 00.00 hours of the first day of October, 2010. In addition to the coverage during House listing & Housing Census, the enumeration of the Houseless population was carried out on the night of 28th February, 2011, as has been the usual practice. For the purpose of Census, certain areas where the access of the civilian enumerators was not permissible due to security reasons termed as 'Special Charges' such as the Defence and strictly Military/Para-Military areas, including operational areas were also covered. Such areas were not covered during the House listing & Housing Census. In addition to the defence/para-military areas, Special Charges also included certain factory areas, certain colonies, sensitive areas, scientific establishments, etc. These also formed Special Charges as these were not accessible by the usual census enumerator.

3. Quality Assurance:

A Task Force for Quality Assurance (TFQA) functioned under the chairmanship of the RG & CCI. Experienced officers of the different divisions of the organization i.e. Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division comprised the TFQA. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The main objective of constituting the TFQA was to subject the data to stringent validation checks and ensure its quality before release as it was expedient to be satisfied itself about the quality of data before putting the same in public domain.

The Directors and their senior officers were involved at all levels with respect to the quality and the coverage of their states/Uts. The TFQA intensively scrutinized coverage and content parameters including edit and imputation logic. The most important aspect of the data quality was to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, especially for small area population statistics. The content was scrutinized mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception was looked at to understand both the existing and the new emerging trends of

population distribution and characteristics. A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2011 Population Enumeration results and finally clear them for use. The population data was cleared only after the full possible satisfaction of the TFQA.

The entire work relating to the data validation and scrutiny was completed by all the States/Union territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

4. Primary Census Abstract:

The Primary Census Abstract which is important publication of 2011 Census gives basic information on Area, Total Number of Households, Total Population, Scheduled Castes, Scheduled Tribes Population, Population in the age group 0-6, Literates, Main Workers and Marginal Workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural Labourers, (iii) Household Industry Workers, and (iv) Other Workers and also Non-Workers. The characteristics of the Total Population include Scheduled Castes, Scheduled Tribes, Institutional and Houseless Population and are presented by sex and rural-urban residence.

In 1981 census main workers were presented into four categories. As regards 1991 Census, the nine-fold industrial classification of main workers has been given in the Primary Census Abstract. One of the important features of the Primary Census Abstract of 1991 Census was the presentation of population of the age group 0-6 which is continued in 2001 and 2011 Census. All the children of age 6 years or less have been treated as illiterate even if the child is going to a school and may have picked up reading and writing. This will help the data users in better analysis and understanding of the literacy data as the literacy rate is calculated with 7 years and above population and it is referred as effective literacy rate. In 2001 and 2011 census four categories of main workers have been given in the Primary Census Abstract.

5. Level of Presentation of PCA data in District Census Handbooks:

The format of Primary Census Abstract (PCA) adopted in the DCHB of 2001 Census has been continued for 2011 Census as the data on four categories of works have been presented similar to 2001 census. The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts in DCHB is as under:

1. District Primary Census Abstract -District/C.D. Block/Town.
2. Primary Census Abstract for Scheduled Castes- District/C.D. Block/Town.
3. Primary Census Abstract for Scheduled Tribes -District/C.D. Block/Town.
4. Village Primary Census Abstract -C.D. Block/Village wise.
5. Urban Primary Census Abstract- Town/Ward level.

The PCA Data for villages was presented C.D. Block wise for the first time in 1991 Census. This practice is continued in 2001 and 2011 Census. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

6. Area Figures:

The area figures supplied by local revenue authorities of the district in respect of tahsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the C.D. Block are the total of the village areas coming under each C.D. Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level.

District Primary Census Abstract
