GORUMARA NATIONAL PARK

GORUMARA NATIONAL PARK

Gorumara National Park in the District of Jalpaiguri is primarily known for its population of Indian Rhinoceros. The park has been declared as the best among the protected areas in India by the Ministry of Environment and Forests for the year 2009. It was declared an Indian National Park on January 31, 1994. Originally as small as 7 km², Gorumara has grown by incorporating neighbouring lands to about 80 km².

The park has recorded fifty species of mammals, 193 species of birds, 22 species of reptiles, 7 species of turtles, 27 species of fish, and other macro and micro fauna.

FOREWORD

The District Census Handbook (DCHB) is an important publication of the Census Organization since 1951. It contains both Census and non Census data of urban and rural areas for each District. The Census data provide information on demographic and socio-economic characteristics of population at the lowest administrative unit i.e. of each Village and Town and ward of the District. The Primary Census Abstract (PCA) part of this publication contains Census data including data on household amenities collected during 1st.phase of the Census i.e. House Listing and Housing Census. The non Census data presented in the DCHB is in the form of Village Directory and Town Directory contain information on various infrastructure facilities available in the village and town viz; education, medical, drinking water, communication and transport, post and telegraph, electricity, banking, and other miscellaneous facilities. Later on, the Telegraph Services were closed by the Government of India on 15th. July, 2013. The data of DCHB are of considerable importance in the context of planning and development at the grass-root level.

2. In the 1961 Census, DCHB provided a descriptive account of the District, administrative statistics, Census tables and Village and Town Directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to Village and Town Directory, Part-B to Village and Town PCA and Part-C comprised analytical report, administrative statistics, District Census tables and certain analytical tables based on PCA and amenity data in respect of Villages. The 1981 Census DCHB was published in two parts: Part-A contained Village and Town Directory and Part-B the PCA of Village and Town including the SCs and STs PCA up to Tahsil/Town levels. New features along with restructuring of the formats of Village and Town Directory were added. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent Village, the distance in broad ranges from the nearest place having such an amenity, was given.

3. The pattern of 1981 Census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 Census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 Census was the Community Development Block (CD Block) level presentation of Village Directory and PCA data instead of the traditional Tahsil/Taluk/PS level presentation.

4. As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a Village in addition to prescribed facilities of earlier Censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

5. The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. These newly

added amenities are: Pre-Primary School, Engineering College, Medical College, Management Institute, Polytechnic, Non-formal Training Centre, Special School for Disabled, Community Health Centre, Veterinary Hospital, Mobile Health Clinic, Medical Practitioner with MBBS Degree, Medical Practitioner with no degree, Traditional Practitioner and faith Healer, Medicine Shop, Community Toilet, Rural Sanitary Mart or Sanitary Hardware Outlet in the Village, Community Bio- gas, Sub Post Office, Village Pin Code, Public Call Office, Mobile Phone Coverage, Internet Cafes/ Common Service Centre, Private Courier Facility, Auto/Modified Autos, Taxis and Vans, Tractors, Cycle-pulled Rickshaws, Carts driven by Animals, Village connected to National Highway, State Highway, Major District Road, and Other District Road, Availability of Water Bounded Macadam Roads in Village, ATM, Self-Help Group, Public Distribution System(PDS) Shop, Mandis/Regular Market, Weekly Haat, Agricultural Marketing Society, Nutritional Centers (ICDS), Anganwadi Centre, ASHA (Accredited Social Health Activist), Sports Field, Public Library, Public Reading Room, Assembly Polling station, Birth & Death Registration Office. In the Town Directory, seven Statements containing the details and the data of each Town have been presented viz.; (i)-Status and Growth History of Towns,(ii)- Physical Aspects and Location of Towns, (iii)-Civic and other Amenities, (iv)-Medical Facilities, (v)-Educational, Recreational & Cultural Facilities, (vi)- Industry & Banking, and (vii)- Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 Census as presented in earlier Census.

6. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

7. The Village and Town level amenities data have been collected, compiled and computerized under the supervision of Shri Deepak Ghosh, IAS., Director of Census Operation, West Bengal. The task of Planning, Designing and Co-ordination of this publication was carried out by Dr. Pratibha Kumari, Assistant Registrar General (SS) under the guidance & supervision of Dr. R.C.Sethi, Ex-Addl. RGI and Shri Deepak Rastogi present Addl.RGI. Shri A.P. Singh, Deputy Registrar General, (Map) provided the technical guidance in the preparation of maps. Shri A.K. Arora, Joint Director of Data Processing Division under the overall supervision of Shri M.S.Thapa, Addl. Director (EDP) provided full cooperation in preparation of record structure for digitization and validity checking of Village and Town Directory data and the programme for the generation of Village Directory and Town Directory including various analytical inset tables as well as Primary Census Abstract (PCA). The work of preparation of DCHB, 2011 Census has been monitored in the Social Studies Division. I am thankful to all of them and others who have contributed to bring out this publication in time.

PREFACE

The District Census Hand Book or DCHB is the most popular and widely used publication which is compiled and prepared by the Census Organization. The first ever DCHB was published in the year 1951. Thereafter Census Directorate is coming up with the publication of DCHB in every decadal Census and the present volume of DCHB of 2011 is seventh in the series.

Over the time, the contents of DCHB have been changing keeping in track with the requirement of the data user on different amenities. Since DCHB is a compilation of Census and non-Census data, the presentation is being done in two parts, viz. the Part-A and Part-B separately for each district. Part-A contains Village & Town Directory data with some important tables depicting availability of basic civic amenities such as drinking water facilities, educational facilities, post & telegraph facilities, banking facilities etc. at the C.D. Block/Village and Town level. Part-B on the other hand contains District Primary Census Abstract of Total Population including Scheduled Castes and Scheduled Tribes at the C.D. Block/Village level and for urban units like for Statutory Towns and Census Towns, it is ward level. Part-B contains data for sex wise distribution of population, age group of 0-6 years, literate and illiterate, Scheduled Castes and Scheduled Tribes, worker and non-worker data, economic category i.e. cultivator, agricultural labour, household industry worker and other worker.

Apart from the above, DCHB also furnishes a variety of essential information pertaining to the district like brief history, the information about administrative set-up, location, climate, economic resources, land use, transport, industry, trade and commerce, place of historical, archaeological and tourists importance etc. It also provides brief analysis of Census data, presentation of the data through various tables, graphs and maps has made the publication much more attractive and valuable.

Most sincere and deepest gratitude is expressed to Dr. C. Chandramouli, IAS, Registrar General and Census Commissioner, India for his constant inspiration, support and valuable suggestions. The support and assistance of Dr. R.C. Sethi, former Additional Registrar General and Shri Deepak Rastogi, present Additional Registrar General, worth special mentioning. Our earnest gratitude to them. We are also grateful to Dr. A.P. Singh, former Deputy Registrar General (Map) for providing the technical guidance in the preparation of maps and to Dr. Pratibha Kumari, Assistant Registrar General (SS) for her overall supervision. Shri A.K. Arora, Joint Director of Data Processing Division under the overall supervision of Shri M.S. Thapa, Additional Director

(EDP) provided full co-operation in preparation of record structure for digitization and validity checking of Village and Town Directory data and the programme for the generation of Village Directory and Town Directory including various analytical inset tables as well as Primary Census Abstract (PCA). Heartfelt thanks to all the Officers of the Office of the Registrar General, India who contributed their share in befitting manner.

The sincere contributions made by the District Magistrates of all districts, Municipal Commissioners of Kolkata and Haora Municipal Corporations, District Census Officers, Additional District Census Officers (Officer In-charge, Census) and innumerable Village, C.D. Block and Town level officials of all the districts of West Bengal for arranging collection of village and town directory data by the local officials from the villages/towns under their respective jurisdiction are hereby acknowledged with thankfulness.

At this Directorate level, sincere thanks are due to all those who put utmost sincerity and zeal towards the successful completion of this publication within the stipulated time. As it is not feasible to express recognitions individually, a separate page of acknowledgement is included in this publication.

HISTORY AND SCOPE OF THE DISTRICT CENSUS HANDBOOK

The need of data at the grass root level for the administrative and planning purposes at sub micro level as well as academic studies prompted the innovation of District Census Handbook. District Census Handbook is a unique publication from the Census organization which provides most authentic details of census and non-census information from village and town level to district level. The District Census Handbook was firstly introduced during the 1951 Census. It contains both census and non census data of urban as well as rural areas for each district. The census data contain several demographic and socio-economic characteristics of the lowest administrative unit i.e. of each village and town and ward of the district. The non census data comprise of data on availability of various civic amenities and infrastructural facilities etc. at the town and village level which constitute Village Directory and Town Directory part of the DCHB. The data of DCHB are of considerable importance in the context of planning and development at grass-root level.

In 1961 census DCHB provided a descriptive account of the district, administrative statistics, census tables and village and town directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was published in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features along with restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given.

The pattern of 1981 census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD Block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation.

As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a village in addition to prescribed facilities of earlier censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. In the Town Directory, seven Statements containing the details and the data of each town have been presented viz.; (i)-Status and Growth History of towns,(ii)- Physical Aspects and Location of Towns, (iii)-Civic and other Amenities, (iv)-Medical Facilities, (v)-Educational, Recreational & Cultural Facilities, (vi)- Industry & Banking, and (vii)- Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 census as presented in earlier census. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

Brief history of the district

Before discussing about the history of Jalpaiguri district let us have a few words about its etymology. The name Jalpaiguri perhaps may have evolved from "JE-LE-PE-GO-RI" probably meaning the place to exchange warm clothes, Blankets etc. with other essential commodities between Bhutan and Jalpaiguri. Again there is another belief that the name of 'Jalpaiguri' has been derived from the two Bengali words viz. 'Jalpai' which means Olive trees and 'guri' which means a place thereby meaning a place where Olive trees are available. The name might as well be associated with deity of a temple located in the Jalpesh village in Maynaguri Police Station in the district, where the local name of the deity is Jalpeswarresembling Lord Siva of the Hindu mythology. Jalpaiguri is the part of the geographical region known as 'Duars' in the state of West Bengal. The areas east of the main river 'Tista' is called 'Eastern Duars' and the western portion is known as 'Western Duars'. Some people is of the view that the word 'Duars' comes from the Sanskrit word 'Dwar' which means 'the gateway' as it is literally the gateway to the hills of Darjiling, Nepal, Sikkim and Bhutan. The then British Government in 1869 formed Jalpaiguri District.

Ancient History of Jalpaiguri :The people of Jalpaiguri are blessed with a long history. The area then also included the regions of neighbouring Coochbehar, Assam and the Rangpur district which is at present in Bangladesh. We can find the mention of Jalpaiguri in the Mahabharata which occurred during the 10th century B.C. King Bhagadutta, ruler of Pragjyotish or today's western Assam, joined the Kaurava side in the epic battle of the Kurukshetra with his Chinese and Kirat soldiers. It is depicted in the Mahabharat that King Bhagadutta ruled over vast region stretched from the Brahmaputra River within Assam to Eastern Nepal along the Himalayan foothills. His daughter Bhanumatiwas the wife of the eldest Kaurava, Prince Duryodhana. The Kirats are actually an off-shoot of Tibeto-Burman speaking Bodo group of tribes originating from Tibeto-Mongoloid races and nowadays called Meches and the other aboriginal people of the district, like the Rajbanshis and the Koches of the past. According to Professor Suniti Kumar Chattopadhyay, Koches too were one of the Bodo tribes. The country named Pragjyotish and the Kirat people find mention in many other ancient texts such as the Ramayan, Harivansha, Brahmandapuram, Raghuvansa etc. and the Greek work Periplus of the Erythraean Sea of the 1st century AD. But no reference to the land and people of the present Jalpaiguri is available till about the 7th century AD.

The findings through several rock inscription from different parts of the district shows the presence of great rulers of India like Shasanka or the ruler of Gauda who was responsible for unifying Bengal, and BhaskarVarman who was the best known ruler of Gupta dynasty.

Medieval History of Jalpaiguri :As we know, the medieval period of Bengal starts with Muhammad BakhtyarKhilji who after conquering Radh and Varendri started for Tibet in the winter of AD 1206 and the greater part of his route was along the Karatoya-Tista till he reached the hills and went through the present district of

Jalpaiguri. He was back from the campaign also through the same route. The region was under the control of some feudatory chiefs during the whole of next century.

As history goes by, when Huien Tsang, the great Chinese scholar visited Assam, a major portion of today's Jalpaiguri was a part of the kingdom of Kamrupa which then apparently extended up to river Karatoya in the west. This land, often and commonly designated as Duars had often been included in the kingdoms of Bhutan and Cooch Behar. The name 'Duars' may have evolved from the word 'Doors' or passages. There were eighteen such passages which were used by the Bhutanese people to communicate with the riverine plains of the south for the cause of trade or barter.

Dooars became a sovereign state from the seventh century. Dooars were the centre of the medieval Kamata Kingdom. The earliest capital of Kamata Kingdom or Kamatapur was probably Nalrajar Garh in the Chilapata Forest. Later it was shifted to Maynaguri, and after that to Prithu Rajar Garh. Again at a later stage the capital was established in Gosanimari, which was an important port town from the seventh century. After the destruction of Kamatapur by Hussain Shah of Gaur Kingdom in 1494, the Koch Kingdom emerged in the Dooars. Vishwa Singha established the earliest Koch capital in Hingulavas situated near Mahakalguri in the Dooars region. Cooch Behar town became the last prominent capital under the Koch rulers. In subsequent times, following their internal weaknesses, the Koch Kingdom were captured by Bhutan.

In the medieval period of Jalpaiguri history, the region had large forest tracts from the eastern bank of Teesta River to the west bank of Bagmati River in Rangpur in present day Bangladesh. These forest lands were the home of three primary Mongoloid tribes, the Koch, Tharu and the Mech.

Modern Period of Jalpaiguri :After the East India Company got Dewani of Bengal, Bihar and Orissa from Shah Alam-II in 1765, it entered into negotiation with Koch Bihar and Jalpaiguri. Darpadev, the Raikat of Batrishhazari or Baikunthapur, was virtually reduced into an ordinary zamindar by the British. His possession was left undisturbed by the company, but heavy revenue was assessed on his lands. Darpadev protested but the protest goes in vain. This was also the time of the infamous famine of *Chhiyattar* (1770).

Famine of 1770 (*Chhiyattarer Manwantar*) from December 1769 to September 1770 was a one year famine caused by the insufficient spring harvest in 1769. Before the end of May, 1770, one-third of the population was officially calculated to have disappeared. In the word of W.W. Hunter, "All through the stifling summer of 1770 the people went on dying. The husbandmen sold their cattle; they sold their implements of agriculture; they devoured their seed-grain; they sold their sons and daughters, till at length no buyer of children could be found; they ate the leaves of trees and grass of the field; and in June 1770 the Resident at the Durbar affirmed that the living were feeding on the dead".

Baikunthapur was in the heart of the Sannyasis Revolt and now they joined hands with the Raja. The Sannyasi Revolt has been made famous by the great Bengali novelist Rishi Bankimchandra Chattopadhyay in his immortal novel 'Anandamath'. The

revolt was however subdued by Captain Stuart of East India Company on 3rd February, 1773.

"The district of Jalpaiguri as an administrative unit came into being on 1st January, 1869, by the amalgamation of the Western Duars district with the Jalpaiguri subdivision of Rangpur (Notification of 8th December, 1868)." (quoted from West Bengal District Gazetteers, Jalpaiguri, July, 1981, page 62)

The British rulers, under the leadership of Captain Hedayat Ali, annexed the Dooars region in 1865 from the Bhutanese Kingdom. Subsequently, the area was divided into two parts, the eastern portion was merged with the Goalpara district within Assam and the western part was turned into a new district called Jalpaiguri. Thus Jalpaiguri came into being for the first time in 1869 as an administrative unit by the amalgamation of western Dooars with the Rangpur sub-division of Jalpaiguri in present day Bangladesh.

The most prominent historical development after administrative set up of Jalpaiguri district was the growth of tea industry in these plains. It helped to change the natural as well as the socio-economic pattern of the Dooars region. Thus what were previously forest tracts, now shifted to a landscape dotted with villages, tea gardens and markets. When the British colonial rule ended in India, the region became merged with the Union of India in 1949. Thus the long history of the Jalpaiguri district has enriched the cultural and socio-economic set up of the region. It has also led to a plethora of historical monuments which documents the different dynastic patterns and their inspired architecture.

Administrative set up

(i) Region of the state where district is located :

Jalpaiguri district of West Bengal, situated at the foothills of the Himalaya Mountains, is also known as the Duars Region. Some say that the word 'Duars' came from the Sanskrit word 'Dwar' which means 'the gateway' as indeed it is the hills of Darjiling, Nepal, Sikkim and Bhutan. National Highway No. 31 runs across the district towards the north-eastern states of India and thus the district serves as a lifeline for the eight sisters in the North-Eastern India. From the geographical point of view, the District lies between latitude 27°00'N to 26°16'N and longitude 89°53'E to 88°25'E. The district is bounded by Darjeeling district and Bhutan in the north, district Koch Bihar and Bangladesh in the south, the state of Assam on the east and on the west by the district of Darjiling and Bangladesh.

(ii) Total number of C.D. Blocks or the next Administrative units of the district and changes therein including jurisdictional changes during 1991-2001 :

Jalpaiguri district consists of three Sub-Divisions, namely Jalpaiguri Sadar, Mal and Alipurduar. There are in all 17 Police Stations in the district. Jalpaiguri (Sadar) comprises 6 Police Stations viz. Rajganj, Bhaktinagar, Jalpaiguri, Maynaguri, Banarhat (P) and Dhupguri. Mal Sub-Division comprises of Police Stations namely Mal, Matiali, Nagrakata and Banarhat (P). Alipurduar Sub-Division comprises of 8 Police Stations namely Kumargram, Falakata, Madarihat, Birpara, Kalchini, Joygaon, Alipurduar and Samuktala. There are a total of 13 Community Development (C.D.) Blocks in the district which are distributed in the above mentioned three Sub-Divisions. There are four C.D. Blocks of Jalpaiguri Sadar Sub-Division viz. (1) Rajganj (2) Jalpaiguri (3) Maynaguri and (4) Dhupguri. Mal Sub-Division consists of three C.D. Blocks viz. (1) Mal (2) Matiali and (3) Nagrakata. There are six C.D. Blocks in Alipurduar C.D. Block viz. (1) Kumargram (2) Falakata (3) Madarihat (4) Kalchini (5) Alipurduar-I and (6) Alipurduar-II.

(iii) Total number of Towns/Villages etc. :

Jalpaiguri has 40 urban units out of which include maximum part of Siliguri Municipal Corporation and 4 municipalities viz. Mal, Jalpaiguri, Dhupguri and Alipurduar. The oldest municipality in the district is Jalpaiguri Municipality which came into being on 1st April, 1885. Alipurduar Municipality is comparatively modern and was established on 7th February, 1957. The municipality of Mal came into being in the year 1989. Dhupguri Municipality is the youngest of the four which came into force from 18-07-2001. There are 35 numbers of Census Towns namely Dabgram (P), Binnaguri, Chakiabhita, Odlabari, Dakshin Odlabari, Lataguri, Matialihat, Chalsa Mahabari, Mangalbari, Sisha-Jumrha, Uttar Madarihat, Jaygaon, Mechiabasti, Uttar Satali, Uttar Latabari, Laskarpara, Dakshin Rampur, Uttar Kamakhyaguri, Paschim Jitpur, Chechakhata, Alipurduar Railway Junction, Bholar Dabri, Birpara, Samuktala, Sobhaganj, Jagijhora Barabak, Jateshwar, Parangarpar, Falakata, Banarhat Tea Garden, Telipara Tea Garden (D), Gairkata, Mainaguri, Dakshin Khagrabari and Kharia (P). It may be noted that in 2001 Census there were 13

Census Towns in the district which means that there is a substantial increase in 2011 Census with 22 more rural areas losing their rural ingredients. In the 2011 Census 733 villages have been recorded in the district in comparison to 756 villages during 2001 Census. The district has also recorded 13 Panchayat Samities and 146 Gram Panchayats.

(iv) If the district is newly created, the area from which it has been carved out :

It is not a newly created district.

(v) Urban Local Bodies :

India has seen the formation of urban local bodies since the time of Indus Valley Civilization. The first Municipal Corporation was set up at erstwhile Madras (now Chennai) under a charter granted by James-II during the British rule in 1687. There are different types of urban local bodies, namely, Municipal Corporations, Municipal Councils, Municipalities, Notified Area Committees, Cantonment Boards etc. Except the Cantonment Boards all other types of municipal bodies are governed by the state municipal laws. Cantonment Boards are controlled by the Central Act called Cantonment Acts, 1924. A municipality is constituted with elected members of the inhabitants of a city or town and municipal corporations, and is created by the enactment of State Legislatures or of Parliament in case of Union Territories. The area which does not fulfil all the conditions laid down as necessary for the constitution of a municipality or it may also be created for newly developing towns or areas are known as Notified Area Committee. Except Notified Area, the councils of all these corporate bodies comprise of elected members of the public through adult franchise (citizen of 18 years and above) based on secret ballot. The notified area is governed by the state governments through a body nominated by it. Apart from overall planning, creation and maintenance of Civil Administration, the primary object of every urban local body is to provide certain civic amenities to the people. Jalpaiguri district has 4 Municipalities and part of Siliguri Municipal Corporation as per 2011 Census.

Civil Administration :

Jalpaiguri district have its district head quarters at Jalpaiguri Town and the District Administration is headed by District Magistrate. There are 3 Sub-divisional Officers being the sub-divisional heads and one Block Development Officer for each of the C.D. Blocks of the district. Superintendent of Police is the head of the district police administration. Each police station are headed with Inspector-in-Charge/Officer-in-Charge in. At the district Head Quarters District Judge is the head of the Judiciary. The Sub-divisional Judicial Magistrate sits in the Courts at the sub-divisional level.

District Highlights - 2011 Census

- As per the jurisdictional boundary of Census 2011, the District Jalpaiguri comprises of 13 C.D. Blocks and 5 Statutory Towns. The Siliguri Municipal Corporation, the largest town in north Bengal lie partly in Districts Darjiling and Jalpaiguri.
- There are total 733 villages and 35 Census Towns in the district.
- Jalpaiguri district occupies 12th position in terms of both total population and Child (0-6 years) population in the state.
- In terms of population in Scheduled Castes category, Jalpaiguri district occupies 5th in position in the state. In case of population under Scheduled Tribes category, Jalpaiguri district ranks 2nd with population of 7,31,704 just behind district Paschim Medinipur.
- The percentage of urban share of population to total population of Jalpaiguri district has expanded from 17.8(2001 Census) to 27.4(2011 Census).
- The decadal population growth rate of the district is 13.9% and it is almost at par with the State average of 13.8%. In this category it ranks 9th among the district jointly with Paschim Medinipur district.
- The density of population (population per square km) of the district is 622 per square km which makes its rank 16th in the State.
- The Sex Ratio (number of females per 1000 males) of the district is 953 which is marginally higher than the average Sex Ratio of the state (950) and it ranks 8th among the districts. When Rural Sex Ratio is considered, the position of the district is better and Jalpaiguri ranks 5th with 957. In case of Sex Ratio of Scheduled Caste population the rank of the district is 12th (942) in the state. For Scheduled Tribes population the Sex Ratio is exactly 1000 and it ranks 6th in the State.
- In case of proportion of child population (0-6 years), Jalpaiguri district ranks 8th in the state (11.9%).
- Jalpaiguri district has experienced a sharp decline in Child Sex Ratio (CSR) from 969 in 2001 Census to 955 in 2011 Census. Although the state average has also declined from 960 in 2001 Census to 956 in 2011 Census, Jalpaiguri district with the decline of 14 points, has recorded second largest fall in the State along with district Maldah, just after Koch Bihar (a decline of 16 points).
- Literacy Rate of the district is 73.3 (lower than the State average of 76.3) thereby making its rank 12th in the state.
- The Work Participation Rate of Jalpaiguri has risen from 38.3 (in 2001 Census) to 39.1 (in 2011 Census) and in this case it ranks 7th in the state.
- Jalpaiguri district is following a decreasing trend in percentage of main workers to total workers from 78.7 in 2001 Census to 76.3 in 2011 Census. This is similar to trend in the State where the percentage of Main Worker of 78.1 in 2001 Census dips into 73.9 in 2011 Census.
- There are 26 (Twenty six) villages in the district having population 10,000 and above.
- Mal Hati Forest (Mal C.D. Block) is the least populated village in the district with population 3.

- Patkata (Jalpaiguri C.D. Block) is the most populated village in the district with population 43,360.
- Among the CD Blocks, Mal C.D. Block has the highest number of villages (103) and Rajganj C.D. Block has the least number of villages (26) in the district.
- As per jurisdictional boundary of Census 2011, Jalpaiguri district stands 6th in terms of area (6227.00 sq. km) among the districts in the State.
- Other Workers constitute the main work force of the district with 60.7% of the total workers. It may be noted here that for 2011 Census, the work in Plantation crops like Tea has been recorded under Other Worker category.
- There are 15 uninhabited villages in the district.

Section - I

Primary Census Abstract (PCA)

Brief Note on Primary Census Abstract

Introduction:

The Indian Census has the reputation of being one of the best in the world. The first Census in India was conducted in the year 1872. This was conducted at different points of time in different parts of the country. In 1881 a Census was taken for the entire country simultaneously. Since then, Census has been conducted every ten years, without a break. Thus, the Census of India 2011 was the fifteenth in this unbroken series since 1872, the seventh after independence and the second census of the third millennium and twenty first century. The census has been uninterruptedly continued despite of several adversities like wars, epidemics, natural calamities, political unrest, etc.

The Census of India is conducted under the provisions of the Census Act 1948 and the Census Rules, 1990. In Censuses until 1931, a synchronous de-facto method was adopted wherein the Census was conducted throughout the country on a single night. This being a very costly affair and involved the deployment of very large force at one point of time was given up in 1941. Since then the same methodology has been followed in all the Censuses. It is a gigantic operation and considered to be the single largest, complex, peace time administrative exercise in the world.

The Census Operation in India is carried out in two distinct but inter connected phases - the House listing and Housing Census followed by the Population Enumeration. During the first phase of Census 2011 i.e., House listing and Housing Census, the buildings, census houses and households were identified and systematically listed in the House Listing and Housing Census Schedule during the period April to September, 2010 in different States/Union Territories. Apart from listing of houses, some useful data on the amenities available to the households was also collected for assessing condition of human settlements, housing deficits etc.

Censuses prior to Census 2001 had the system of collecting the information through Individual Slip which was a key schedule for every individual. The information collected through slip was then compiled for a household. Some information was also collected in addition to this for the household. During 2001 Census a comprehensive Household Schedule was adopted replacing the individual slip concept. In 2011 Census also similar household schedule was used for canvassing. The scope of demographic, socio-economic parameters has been widened in every census.

2. Population Enumeration - Census 2011:

The field work of the second phase i.e. Population Enumeration was carried out during February-March, 2011. One of the essential features of Population Enumeration in the second phase was that each person was enumerated and her/his individual particulars were collected at a well-defined point of time.

The Census moment and the reference date for the Census of India 2011 was 00:00 hours of 1st March, 2011. The enumeration was conducted from 9th February to 28th February, 2011 along with a revisional round from 1st March, 2011 to 5th March, 2011 synchronously all over the country except for few specific areas of the Jammu & Kashmir, Himachal Pradesh and Uttarakhand states that remain snowbound in February. In these locations the population enumeration was done from 11th September, 2010 to 30th September, 2010 along with a revisional round from 1st October, 2010 to 5th October, 2010. The reference date for the census in snow bound non-synchronous areas of these states was 00.00 hours of the first day of October, 2010. In addition to the coverage during House listing & Housing Census, the enumeration of the Houseless population was carried out on the night of 28th February, 2011, as has been the usual practice. For the purpose of Census, certain areas where the access of the civilian enumerators was not permissible due to security reasons termed as 'Special Charges' such as the Defence and strictly Military/Para-Military areas, including operational areas were also covered. Such areas were not covered during the House listing & Housing Census. In addition to the defence/para-military areas, Special Charges also included certain factory areas, certain colonies, sensitive areas, scientific establishments, etc. These also formed Special Charges as these were not accessible by the usual census enumerator.

3. Quality Assurance:

A Task Force for Quality Assurance (TFQA) functioned under the chairmanship of the RG & CCI. Experienced officers of the different divisions of the organization i.e. Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division comprised the TFQA. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The main objective of constituting the TFQA was to subject the data to stringent validation checks and ensure its quality before release as it was expedient to be satisfied itself about the quality of data before putting the same in public domain.

The Directors and their senior officers were involved at all levels with respect to the quality and the coverage of their states/Uts. The TFQA intensively scrutinized coverage and content parameters including edit and imputation logic. The most important aspect of the data quality was to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, especially for small area population statistics. The content was scrutinized mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception was looked at to understand both the existing and the new emerging trends of

population distribution and characteristics. A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2011 Population Enumeration results and finally clear them for use. The population data was cleared only after the full possible satisfaction of the TFQA.

The entire work relating to the data validation and scrutiny was completed by all the States/Union territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

4. Primary Census Abstract:

The Primary Census Abstract which is important publication of 2011 Census gives basic information on Area, Total Number of Households, Total Population, Scheduled Castes, Scheduled Tribes Population, Population in the age group 0-6, Literates, Main Workers and Marginal Workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural Labourers, (iii) Household Industry Workers, and (iv) Other Workers and also Non-Workers. The characteristics of the Total Population include Scheduled Castes, Scheduled Tribes, Institutional and Houseless Population and are presented by sex and rural-urban residence.

In 1981 census main workers were presented into four categories. As regards 1991 Census, the nine-fold industrial classification of main workers has been given in the Primary Census Abstract. One of the important features of the Primary Census Abstract of 1991 Census was the presentation of population of the age group 0-6 which is continued in 2001 and 2011 Census. All the children of age 6 years or less have been treated as illiterate even if the child is going to a school and may have picked up reading and writing. This will help the data users in better analysis and understanding of the literacy data as the literacy rate is calculated with 7 years and above population and it is referred as effective literacy rate. In 2001 and 2011 census four categories of main workers have been given in the Primary Census Abstract.

5. Level of Presentation of PCA data in District Census Handbooks:

The format of Primary Census Abstract (PCA) adopted in the DCHB of 2001 Census has been continued for 2011 Census as the data on four categories of works have been presented similar to 2001 census. The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts in DCHB is as under:

1. District Primary Census Abstract -District/C.D. Block/Town.
2. Primary Census Abstract for Scheduled Castes- District/C.D. Block/Town.
3. Primary Census Abstract for Scheduled Tribes -District/C.D. Block/Town.
4. Village Primary Census Abstract -C.D. Block/Village wise.
5. Urban Primary Census Abstract- Town/Ward level.

The PCA Data for villages was presented C.D. Block wise for the first time in 1991 Census. This practice is continued in 2001 and 2011 Census. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. An appendix to District Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

6. Area Figures:

The area figures supplied by local revenue authorities of the district in respect of tahsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the C.D. Block are the total of the village areas coming under each C.D. Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level.
